

Heart Disease Cured.

WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently, other ailments came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes made me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative Nervine and its effect was simply wonderful. I heartily commend your remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. Poisons engendered by food fermenting in a dyspeptic stomach are the direct cause of rheumatism, gout, bronchitis, liver and kidney complaints, asthma, pneumonia and many nervous ailments.

These results are prevented by the use of the Shaker Digestive Cordial, a remedy discovered and prepared by the Shakers of Mount Lebanon, N. Y. It is in itself a food and has power to digest other food taken with it. Thus it rests the diseased stomach and finally masters the worst cases of dyspepsia. It acts promptly and fresh strength and increase of weight soon follows. The first dose taken immediately after eating, abates the pain and distress so dreaded by dyspeptics. Trial bottles—enough to prove its merit—10 cents. Laxol is the best medicine for children. Doctors recommend it in the place of Castor Oil.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

CASTORIA.
The fact is, it is the best medicine for children.

In the lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa and South Dakota, along the lines of the Chicago, Milwaukee & St. Paul railway, are hundreds of charming localities preeminently fitted for summer homes, nearly all of which are located on or near lakes which have not been fished out. These resorts range in variety from the "full dress for dinner" to the flannel shirt costume for every meal. Among the lists are names familiar to many of our readers as the perfection of northern summer resorts.

Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee, and none of them are so far away from the "busy marts of civilization" that they cannot be reached in a few hours of travel, by frequent trains, over the finest road in the Northwest—the Chicago, Milwaukee & St. Paul. Send a two cent stamp for a copy of "Vacation Days" giving a description of the principal resorts, and a list of summer hotels and boarding houses, and rates for board, to Geo. H. John P. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John P. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

Soldiers' and Sailors' Orphan's Home

A recent visit to the Indiana Soldiers' and Sailors' Orphan's Home shows that admirable institution to be under superior management. One needs to be there but a short time to know that the discipline of the Home is remarkable and that everything moves along without a jar. Prof. A. H. Graham is certainly the right man as superintendent. He is beloved alike by the boys and girls and the employees. They all live happily there together and the influence are such that the boys and girls as they go out from the Home to take their places in the state as men and women will at once become useful and loyal citizens.

ADVERTISING POINTERS.

Continuous advertising compels attention.

The courtship of failure always follows a divorce from publicity.

When failure comes to tempt the advertiser, it wears the cloak of economy.

You can't reap a bountiful harvest of trade when the seed of publicity is improperly sown.

A present opportunity is often lost through using advertising space to brag about past success.

Doing business this year on last year's advertising is like warming at the reflection of a fire in a mirror.

WOES OF THE MILKMAN.

Fry His Best, He Never Succeeds In Getting Back All His Bottles.

"The greatest trial of my life," says a milkman, "is bottles. Yes, sir, bottles. If it wasn't for bottles, I'd want nothing better. Other people never think of bottles. I actually dream of bottles. It's bottles, bottles, bottles—who's got the bottles with me all the time!"

"The most perfect system of book-keeping ever invented will not account for bottles. When I send out 100 bottles of milk in the morning, I'm dead certain to lose track of half a dozen. I never look upon them bottles all again. Never again, sir! The milks are 8 cents and the bottles are 8 cents. But the people who would scorn to steal milk will keep the bottles. They think bottles don't cost nothing, or they don't think nothing at all."

"Some time ago a lady was behind about seven bottles and hadn't returned any for a week. I know some people get two or three days behind with their empties, but I couldn't account for all of these. While I was thinking about it and look over across toward her flat I saw her maid chuck an empty out of the kitchen window into the lot. And, don't you know, I went over there and found a whole pile of broken bottles and two or three whole ones. They didn't know any better. Now, there was a lady in the other day, and I say, 'Ma'am,' says I, 'I've got you charged with five bottles here.'"

"What's that?" says she. "I haven't got any of your old bottles. You don't suppose I'd steal milk bottles, do you? When I get to stealing, I'll take something better'n old castoff milk bottles. I don't like your milk anyhow. It's more'n half water, and I'm going to change."

"And she did change, and I lost a good customer by the mere mention of bottles. Some people keep their tea and things in the bottles. You can't go and search for them. You must take their word for it that they ain't got none. They are supposed to return their empties the next day, and they'll keep them for a week. I'd have to have a carload of extra bottles to suit them. Some of them just slap on their empties when the dumbwaiter comes their way, and some other milkman goes off with them. They don't care. And then, when you call up for their empties, they get mad as hops and swear they sent them down—which perhaps they did, but not to us."

"And there's the servants that break bottles and swear they returned them a week ago, and their mistresses believe them. It's enough to drive a man to drink!"—New York Herald.

Constituent Parts of a Cord of Wood.

A cord of fairly seasoned wood weighs about 4,000 pounds. If subjected to a heat of between 700 and 800 degrees it resolves into three distinct products—charcoal, pyroigneous acid and gases. In order to properly bring this change about it is necessary to place the wood in a kiln and apply the heat gradually for four or five days. At the end of that time the residue will be 1,000 pounds of charcoal, 2,000 pounds of pyroigneous acid and 1,000 pounds of uncondensed gases. The aggregate weight of these products is exactly equal to the original weight of the wood.—St. Louis Republic.

Exhausting.

"They say early rising is very unhealthy." "Of course." "Many a woman has broken down her constitution getting her husband up in time for breakfast."—Chicago Record.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do.
There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.

BEGINNING OF END

Powers Moving Toward Intervention
In the Greek War.

ARMISTICE MAY BE SUGGESTED.

Great Britain Says the Time Has Come
to Act—Greek Government Not Ready
to Give Up the Struggle—Reports From
Arta Modified—Outlook Gloomy at
Athens.

[Copyright by the Associated Press.]
LONDON, April 26.—What seems likely
to be the last week of the war was
entered upon yesterday. It is difficult
to understand the tangle of conflicting
telegrams to understand the exact posi-
tion of affairs. Following the Greek
defeat at Larissa, London opinion is al-
most unanimous that the end is in
sight, and this view is probably shared
by the powers, as they are already mov-
ing to intervene.

It is believed that intervention will
first take the form of a suggestion of
armistice, to which the combatants
would not doubt agree. Since Saturday
afternoon the British foreign office has
been in close communication with the
other members of the European concert,
Great Britain, suggesting that the time
has now arrived for them to act. The
French, German and Italian govern-
ments have already responded, offering
to agree, though the German govern-
ment adds as a condition that it will be
necessary to enact a pledge from Greece
to obey the mandate of Europe when
this mandate is again given.

British foreign office believes that
Greece will give this pledge, as the dis-
asters which have overtaken her have
demonstrated that Turkey still possesses
a formidable fighting machine, a fact
which must have a sobering effect upon
the popular demand for war at Athens,
and which will permit the Greek nation
to climb down without disgrace after a
superb vindication of the personal cour-
age of the Greek troops and a gratify-
ing demonstration of Hellenic patriot-
ism.

If the Greeks listen to reason and ar-
guments pressed at Athens and Russia
at Constantinople, it is not improbable
that a decision will be reached by to-
morrow, before which it is not supposed
here that Edhem Pasha or Osman Pasha
will have time to do more than to ap-
pear at Pharsala.

Despatches from Arta somewhat
modify Saturday's report and tone down
the glowing prospects, although the
Athenians are still hoping that the cap-
ture of Janina may come as an offset to
the retreat from Thessaly. There is no
confirmation of the report that a white
flag has been seen flying over the
Gyrovastif and Pentepolida has not
yet been captured.

Colonel Commandours, with a bat-
talion of 1,200 engaged 2,500 Turks at
3:30 p. m. Saturday on the plain in front
of Pentepolida. The battle lasted
until half past seven in the evening.
The result is not yet known here
(Athens), though it is understood that
the Greeks lost 150 killed and wounded.
Colonel Commandours has no artillery.

Colonel Manos has returned to Arta
with the third division. The second
brigade under Colonel Bozaris is 30
kilometers from Arta. Its forward
movement is reported interrupted.
The Greek fleet is also the subject of
many curious reports, one of which as-
serts that the eastern squadron has
been bombarded Dedeagach. It is known
that the Turks Saturday ordered that
all the lanterns in the lighthouses on
the gulf of Salonica should remain un-
lighted. Five ironclads and four tor-
pedo boats are operating along the
coast between Platamon and Katerina.
The British and French subjects resid-
ing at Volo have addressed notes to
their respective envoys here begging
for the despatch of warships to Volo
to protect them.

WILL CONTINUE THE STRUGGLE.
Greeks Will Resist With Greater Energy
Further Advances of the Enemy.
ATHENS, April 26.—The Greek govern-
ment has decided to persevere in the
struggle and to resist the further ad-
vance of the enemy with greater energy
than has hitherto been displayed. It is
officially declared that the new line of
defense is far stronger than the frontier
where the Turks gained their advan-
tage in consequence of the superiority
of their positions.

It is useless to deny that a very
gloomy outlook of the war prospects is
taken here by the better informed.
There are, however, no signs of panic.
The city exhibits a dignified endurance
while many persons still show an un-
abated enthusiasm for fight. This sym-
ptom is particularly noticeable among
the wounded now in Athens. Their
one desire is to be healed in order that
they may rejoin the colors. Naturally

JUDGE HOLMAN'S FUNERAL.

Draped in Mourning, Aurora Honors Her
Noted Citizen.

AURORA, Ind., April 26.—The funeral
of Hon. William S. Holman, who has
represented the Fourth district in con-
gress many years, was very largely at-
tended here yesterday. Judge Holman
was born here 74 years ago and always
lived here. Everybody knew him. The
special cars bearing the remains, the
family and the congressional committee
arrived over the Baltimore and Ohio
Southwestern railway at 9 a. m. The
Aurora committee met the train in Cin-
cinnati. At the depot here the citizens
turned out en masse and followed the
hearse to the First Baptist church,
where the remains lay in state. Resi-
dences and business blocks were draped
in mourning. While the remains lay
in state the congressional escort was en-
tained at the hotel. At 12:30 the re-
mains were taken to the Holman resi-
dence, where the funeral services were
held. The citizens' committee, council,
Bar association and other organiza-
tions were in the procession to the cem-
tery in bodies.

Attempted Suicide.
NEW YORK, April 26.—Professor J.
D. Dennison, aged 73 years, attempted
to commit suicide on Saturday at his
home in Haledon, N. J. He had grown
helpless and sought to relieve his wife
of the burden of his support.

EARTHQUAKE.
CAIRO, Ills., Receives a Shock Which
Causes Terror Among the People.
CAIRO, Ills., April 26.—A severe earth-
quake was felt here at exactly 10 o'clock
last night. It lasted about 20 seconds.
The largest structures were shaken
with a swaying motion and people
rushed in terror to the streets. No
damage has been reported.

INUNDAED COUNTRY.
Louisiana Levees Being Taxed to Their
Utmost—Break at Ottumwa, La.
MEMPHIS, April 26.—It is rainy and
threatening in the lower delta country,
and the Louisiana levees are being
taxed to their utmost. At Natchez the
river is rising. Showers prevailed in
that section all day yesterday and last
night a steady downpour was reported.
The levees are soft and mushy and with
a continued precipitation it is feared
that the embankment will give way. A
telegram from Clayton, La., states that
the Tensas river has risen over one foot
since Saturday night, and the swift
stream is full of heavy drifts. The
backwater from the Biges crevasse is
showing itself near Vandalia and it will
inundate many acres of rich land in
that section. At Greenville the river is
slowly falling. The weather is warm
and unsettled.

At Memphis the water is receding.
The river at Cairo is falling at an in-
creased rate.

At Ottumwa, La.
OTTUMWA, La., April 26.—The river
has broken over the levees and flooded
the bottoms, carrying several houses
down stream. In some places the water
is above the first story of the houses.
One Burlington mainline track is im-
passable and hundreds of men are at
work attempting to prevent damage to
the other line. The situation is critical,
but it is not believed that the Burling-
ton will keep the mainline open. The
Wabash and Milwaukee tracks are gone
here for a distance of 200 feet and the
other roads are tied up. The Rock
Island has miles of track under water.
No attempt is being made to run trains.
The river is still rising slowly.

PRESIDENT M'KINLEY.
Arrangements Completed for Receiving
Him at New York.
NEW YORK, April 26.—Final ar-
rangements for receiving and escorting
President McKinley from the ferry to
the Windsor hotel, where he will be
quartered during the Grant day cere-
monies, were completed last night by
General Daniel Butterfield. The honor
of acting as military escort to the pre-
sident was then tendered to Cavalry
Squadron A, composed of about 250
men. President McKinley will receive
the Signa Alpha Epsilon fraternity, of
which he is a member, this evening at
the Windsor hotel. After the reception
the association will adjourn to the Wal-
dorf, where the annual banquet will be
held. It is expected that President Mc-
Kinley and ex-Secretary Carlisle, who
is also a member of the society, will be
present at the banquet.

PLACED IN AN ASYLUM.
Kentucky Stockman Drugged In Cincin-
nati and Taken to California.
PAINTSVILLE, Ky., April 26.—Alexan-
der Allen, the missing stock merchant
from Salsersville, has been heard from.
His brother received a letter Saturday
stating he was in an asylum in San
Francisco, Cal. He says after selling
his hogs and cattle at Cincinnati he
met a woman who drugged him, took
him to San Francisco and placed him
in an asylum, saying he was insane.
Allen, it is alleged, had \$20,000 on his
person when he disappeared. He wrote
for money to get home on.

Alleged Counterfeiters Arrested.
JOLIET, Ills., April 26.—The police
have arrested John Murray and James
Nolan, two suspected counterfeiters.
Shortly after their arrest a package con-
taining a large number of counterfeit
quarters, with dies and metals for mak-
ing the same, was found. The men
denied that they had anything to do
with the package, but the officers are
certain they threw it away, and are
confident they have made a good cap-
ture. The men were taken to Chicago
to be prosecuted.

Alleged Insurance Swindler Arrested.
NEW YORK, April 26.—Edward S.
Farrow, formerly a lieutenant in the
United States army, was arrested at the
Grand Central depot here yesterday on
requisition papers charging him with
conspiracy in Pittsburgh, Pa., where he
was wanted. He was arrested immedi-
ately on his arrival from Canada, where
he went several days ago. Farrow
claims that he gave himself up volun-
tarily. He is charged with being en-
gaged in insurance frauds in Pittsburgh.

CRUISER BROOKLYN.

She Is Expected to Take Part in Vic-
toria's Diamond Jubilee.

PHILADELPHIA, April 26.—The United
States cruiser Brooklyn, as sound as be-
fore she struck on Schooner Ledge,
lifted her anchor from the Delaware
river this morning and passed down to
the sea. She will undergo her final
trip under the supervision of the
naval board of inspection, after which
she will be assigned to her station. The
Brooklyn is expected to take part in the
celebrations attending the diamond
jubilee of Queen Victoria in June. It
is understood that she will be assigned
to the European squadron, probably as
flagship.

Antonio Maximo Mora.
NEW YORK, April 26.—Antonio Max-
imo Mora, whose property in Cuba was
confiscated 23 years ago, and whose
claim against Spain was finally settled
in 1895 by the payment by Spain of
nearly \$1,000,000, is dead at the Hotel
Grenoble, aged 79 years.

Expired While Talking.
RAMSEY, Ills., April 26.—William H.
Davis, a farmer, while on his way to
town, stopped on the road to talk to a
neighbor, and fell dead. He was a suf-
ferer from heart trouble.

ONE DOLLAR A POUND

That Is What the Government Will
Pay For Powder.

IT IS THE SMOKELESS VARIETY.

Rear Admiral Richard W. Meade Criti-
cally Ill—Congress Will Do Little This
Week—Tariff Bill May Be Reported
Thursday—Indiana Postmasters Ap-
pointed.

WASHINGTON, April 26.—A contract
for the purchase of 40,000 pounds of
smokeless powder is soon to be allotted
by the war department, and at the
prices proposed by three bidders the
powder will cost the army not less than
\$40,000. This brand of powder is the
most expensive manufactured for mili-
tary and naval uses, and it has been
only in recent years that the article has
so increased in demand, owing to the
introduction of the new small arms,
modern rifled guns requiring powder
capable of producing the highest ve-
locities, that the military and naval au-
thorities have given great attention to
perfecting the various receipts submit-
ted by inventors.

Recently the army authorities called
for proposals for supplying 40,000
pounds, and three bids were received,
all alike, no contractor being willing to
provide powder for less than \$1 a
pound. A New York firm, the Du
Ponts of Delaware and a California
manufacturer have entered the contest,
and the authorities are now consult-
ing as to how the bid shall be awarded.
To settle the matter equitably it is prob-
able the award will be divided, and
each firm given an equal part of the
work. This will facilitate the deliveries
of the powder, which the department
requires for the annual summer target
practice, and enable the authorities also
to judge between the merits of the various
brands.

Before long the government will have
to ask for bids to furnish an enormous
quantity of powder for the great bat-
teries now being located along the sea-
board, and before the year closes many
thousands of dollars will be expended in
laying by supplies for these guns.

At present both the military and naval
branches of the service are without suf-
ficient powder of the smokeless variety
to fight a single battery 24 hours. Of
late, however, the navy has contracted
for \$250,000 worth of smokeless powder,
and before the fiscal year begins in July
there will be an ample sufficiency for
any demands on the service.

Congressional Forecast.
WASHINGTON, April 26.—There will
not be a quorum in the United States
senate during the present week owing
to the absence of a large number of sen-
ators in New York in attendance upon
the ceremonies over General Grant's
tomb. Consequently no business of im-
portance will be transacted. If the
wish of the Republican members of the
finance committee is acceded to, the
tariff bill will be reported Thursday,
but it is most probable this will be post-
poned until next week. The work of
preparing for the reorganization of the
senate committees will proceed inform-
ally.

NEW YORK REFORM CLUB.

Dinner Given by That Organization to
ex-President Cleveland and Others.

NEW YORK, April 26.—The Reform
club gave its annual dinner in the new
ballroom of the Waldorf Saturday night.
There were present representative men
from all parts of the country who took
part in the great Democratic campaign
last fall. Ex-President Cleveland was
present and delivered his first public
speech since his retirement from office.
The meeting and the speeches, it was
generally understood, were a large
measure to indicate the policy of the
gold Democrats in the next presidential
campaign. There were among the
guests Grover Cleveland, John G. Car-
lisle, William Wilson, Edward M. Shep-
herd, Donelson Caffery, William D.
Bryant and Josiah Patterson. Over 500
persons sat down to the feast. Ex-
President Cleveland in his address spoke
in part as follows:

I do not fear that I shall be accused of
sinister designs with a view to the atmosphere
of this occasion. I have not the path of
duty and the best hope of safety lie in an
immediate and earnest attempt to accom-
plish the rehabilitation and generation of
true Democracy. In a large part of the
country where Cleveland is most gen-
eral the Democratic name has been dis-
credited, and the political sentiment of the people, and
there, as everywhere, is a yearning, the people
can be trusted to arrive at a correct
conclusion if they have adequate opportu-
nity for examination and information. Let
us devise means to break through the in-
fluence of the mischievous leadership that
surrounds them without arrogantly as-
suming that no mistakes or hardships afflict
them, and that no reforms in their con-
ditions are needed. Let us meet our coun-
trymen face to face in argument and counsel.
We shall find in every locality able, heroic
men, willing to struggle against the tide
of misconception. Let us hold up their
hands by organized effort and timely as-
sistance. Let true Democrats meet the
passion and interests of their former as-
sociates who have assumed the leadership
of anti-Democratic wanderings with firm
expositions, reminding them that Demo-
cratic conscience cannot be forced to follow false
lights, however held aloft, and let us at
the same time entreat them in the name
of honorable political comradeship and in
the memory of glorious victories won by a
united Democracy to turn from the way
that leads to party defeat and destruction.

Held a Conference.
NEW YORK, April 26.—An informal
conference of the representatives of the
National Democracy from several states
was held yesterday in the Reform club.
The object of the meeting was to ascer-
tain the state of organization through-
out the country and the means that are
being taken to preserve it intact. No
call for a future conference was decid-
ed on, that being left to the national com-
mittee.

LEAVENWORTH SOLDIERS' HOME.
Colonel Smith Transferred to the Pacific
Branch Home.
LEAVENWORTH, Kan., April 26.—Col.
Andrew J. Smith, governor of the sol-
diers' home here, has received an official
telegram from Washington informing
him that the board of managers of the
National Soldiers' home had voted
unanimously to transfer him to the Pa-
cific branch home at Santa Monica,
Cal., and by the same vote had elected
Col. J. G. Rowland, at present governor
of that branch, commandant of the
Leavenworth home. Colonel Rowland
is an Illinoisian and a few years ago
was mayor of Quincy, his former home.
Later he was governor of the Illinois
State Soldiers' home for two years, be-
ing elected governor of the Pacific
branch upon the death of its former
commandant.

Heart Disease Cured.

WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently, other afflictions came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes of rest would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative. Nerve and its effect was simply wonderful. I heartily commend your remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerve sent free to all applicants. DR. THE MOST ANXIOUS LOT.

The most anxious lot of people in Washington just now is made up of representatives of the great interests desiring to control the final shapings of the tariff bill. The sugar trust and other great organizations which were successful in manipulating the democratic bill in their interests are hovering about, still hoping to get some crumbs of comfort out of the finance committee in the senate. They admit that the bill is far less advantageous to them than the present law and their only hope is for some amendments by the senate committee or the senate, but they admit that there is little probability of that. However, with the enormous interests at stake they can afford to fight to the last, for it is generally recognized that no tariff bill before congress for many years has struck so hard a blow at trusts and combination as does this one.

JOEL H. MATLOCK is doubtless sorry he is out of the Fourth district and cannot consistently be a candidate for congress.

The state factory inspector of Pennsylvania says there are 100,000 more men employed in his state than were employed six months ago.

The new Louisville paper is represented in Seymour by F. W. Wesner, who will endeavor to enlist a large company of free silver readers as quickly as possible.

The Foraker railway pooling bill is before the senate and if passed it is believed by many will place the railroads on a more solid footing than they have been for years.

The candidates for the late Judge Holman's seat in congress are becoming rather numerous, but their anxiety will be greatly increased when the governor proclaims the day for the special election.

The members of the silver commission expect to leave for Europe about the middle of the coming month. One result of their appointment has been the bringing to the surface of some historical facts with reference to former action in behalf of international bimetalism. These researches show that the republican party has been the original mover in all former bimetallic conferences, as it is in this one.

NEGRO EXODUS.

They Receive a Warning From Masked Men to Leave.

DAVIS, L. T., April 26.—As a result of the warning given to all the negroes in this town last week by a mob of masked white men not a colored man remains in the town. The federal grand jury, which was called together by Judge Kilgore to investigate the outrages, examined a small army of witnesses, but reported that it had been impossible to identify any of the raiders. When it became known that no indictments had been returned the colored people hastily quit the town. The murder of a white man by a negro was the preliminary cause of the trouble.

Vestibule Train Derailed.

CHARLOTTE, N. C., April 26.—The Southern vestibule train, northbound, was derailed two and one-half miles north of Blacksburg, S. C., last night. The engine, postal, baggage and express cars, the combination passenger coach and the front trucks of the first sleeper were thrown from the track. Engineer Pettus and Fireman Sigman were injured, but neither was fatally hurt. No passengers were injured.

Theological Society of America.

NEW YORK, April 26.—The third annual convention of the Theological Society of America was held yesterday in the concert hall of Madison Square garden. The convention was held behind closed doors, none but delegates and members being admitted.

SAW LINCOLN KILLED

WILLIAM WITHERS, LEADER OF FORD'S ORCHESTRA, TELLS HIS EXPERIENCE.

Had Written a Song For That Particular Performance—Was on the Stage and Booth Struck Him With a Dagger—He Was First to Identify the Assassin.

At the Professional Woman's league, while the members worked diligently over the novelties being made for the coming bazaar, the question came up, "Is there anybody living who saw Lincoln assassinated?"

Immediately everybody had something to say about somebody else who had a friend who was at the theater that night. The most interesting story was told of William Withers, Jr., now orchestra leader for Mr. Daly, but at the time of the assassination leader of the orchestra of Ford's theater.

Mr. Withers enjoys the distinction of having not only been at the theater the night Lincoln was assassinated, but of having been pierced by the dagger of the assassin just a few moments after Booth had fired the shot that made Lincoln a martyr. Every time he goes to Washington he is requested to tell this story, and although many and varied are the recitals of this thrilling event, Mr. Withers' is somewhat different from the others. Here is the story as he tells it in the Washington Post:

"I was leader of the orchestra at the time, and as the president was to witness the performance of 'Our American Cousin' I thought that, as befitting the occasion, I would compose a song. So I did. It was entitled 'Honor to Our Soldiers' and dedicated to the president. This was to be sung between two of the acts by a quartet I had engaged and the entire company, who were to be attired in the American colors.

"As I was on my way to the theater I met John Wilkes Booth just in front of George Harry's saloon, which adjoined the theater. It was a sultry night, and Booth had his overcoat over his arm. 'Good evening, Billy,' he said. 'Come and have something?'

"As I was leaving to enter the theater Booth remarked, 'I'll witness the performance tonight.' I noticed nothing strange about his demeanor and subsequently saw him as I was coming out for the overture.

"Soon the president, his wife, Major Rathbone and Robert and Tad entered their box. I signaled for 'Hail to the Chief,' and the audience cheered, and the president turned smilingly and bowed. Then he seated himself, and with his accustomed modesty drew the curtains half across the box.

"After the first act J. P. Wright, the stage manager, sent me word he would be unable to have the special song sung at that time, but he would try to have it rendered between the second and third acts. A similar message was sent to me at the close of the second act, and I became somewhat exercised. I started to go upon the stage when I saw Booth on the balcony walking down the aisle in the direction of the president's box. He was seemingly attentive toward the acting, for the curtain had again gone up. I encountered a scene shifter, Spangler, whose office I afterward learned was to turn out the lights in the theater as soon as the shot was fired. He obstructed my passage.

"What do you want here?' he demanded. In reply I told him it was none of his business. Mr. Wright appearing, Spangler left his position on the stage alongside the box in which was the apparatus for illuminating the theater. I closed the lid of the box and sat upon it to talk to the manager, unconscious that I was spoiling the plan.

"Mr. Wright told me the song would be sung at the close of the performance, and Miss Keene had sent word to the president requesting him to stay to hear it.

"I was just about to return to the orchestra when the crack of a revolver startled me. All was quiet instantly. I saw a man jump from the president's box on to the stage. It was Booth. He ran directly toward the door leading into the alley. This course brought him right in my path. He had a dagger in his hand, and he waved it threateningly. He evidently did not recognize me, for he appeared like a maniac. His eyes seemed starting from their sockets, and his hair was disheveled.

"With head down, he ran toward me and cried, 'Let me pass!' He eluded me, and the knife cut through my coat, vest and underclothing. He struck again, the point of the weapon penetrating the back of my neck, and the blow brought me to the floor. I watched him make his exit into the alley and caught sight of the horse, held by 'Peanut John.'

"The commotion in the audience was something terrible. Several actors, including Harry Hawke, rushed out, and a man who proved to be a detective lifted me up and said, 'I arrest you.' 'What's this all about?' I asked. 'I'm stabbed.' I was quickly told what was the matter. The thought flashed across my mind that Booth was the assassin.

"I was taken to the police station, and my deposition was received in the presence of Mayor Wallach. That was, I believe, the first intimation that they had of the identity of the murderer. I was at the trial of the conspirators and the second to give testimony. My wound healed in a short time."

A Pretty Sure Test.

"I wish I knew whether my Robert really loves me or not."

"You can easily find out. All you have to do is to make an appointment with some other young fellow, only take care that Robert is informed of what you have done. Then if he really loves you he will certainly kill you, but if he doesn't you may rest assured that he is only flirting with you."—London Fun.

"SHE DRESSES WELL."

But Her Clothes Often Cover a Living Death.

Beauty Is the Shrine of Men's Worship, and Women Vie With Each Other to Make Themselves Attractive.

The remark, "She dresses elegantly," is a very common one in this age of wealth and progress.

Women vie with each other in making themselves attractive, for men admire a stylishly dressed woman.

Good clothes add to the charms of the woman in perfect health, but are ill-befitting those who are afflicted with female diseases.

Through ignorance or carelessness have suffered the inroads of female diseases to stamp them as physical wrecks. It is unfortunate, but true, that some physicians allow women to suffer needlessly, because man can only work from theory, and at best only patch up, without removing the cause.

Proof is abundant that Lydia E. Pinkham's Vegetable Compound removes the cause, gives strength to the weakened organs, vigorous health to the system, and therefore beauty to the face and form.

Mrs. Pinkham, Lynn, Mass., gladly answers, free of charge any or all letters.

Here is one of the results:

"Three months ago, I wrote you a letter describing my troubles, which were inflammation of the womb and bladder. I had not seen a well day since the birth of my second child, 16 years ago. I had spent hundreds of dollars for doctors and medicines.

"Such pains as I endured. My back ached, my feet and limbs were swollen, and it was almost impossible for me to stand; I could not walk any distance. I received your answer to my letter, and followed closely all your advice, and I have been using Lydia E. Pinkham's Compound for three months. Now I can work all day without pain. I have recommended the Compound to many of my friends, and gladly recommend it to all women in any way afflicted with female troubles."—LYDIA BATES, 227 Spring St., Greensburg, Pa.

WASHINGTON, April 26.—The officers of the National Capital Life association here were not disturbed by the announcement that indictments had been returned against them by the federal grand jury at Chicago as told in dispatches from that city Saturday night, but they are at a loss to know upon what grounds the indictments were procured.

ALEXANDRIA, Va., April 26.—The excitement of Saturday night growing out of the sensational reports that the negroes would attack this city as a revenge for the lynching of McCoy Friday night has entirely subsided. In a few places the people gathered yesterday in small crowds to discuss the doings of the night before, but there was no excitement.

Soldiers' and Sailors' Orphan's Home

A recent visit to the Indiana Soldiers' and Sailors' Orphan's Home shows that admirable institution to be under superior management. One need not be there but a short time to know that the discipline of the Home is remarkable and that everything moves along without a jar. Prof. A. H. Graham is certainly the right man as superintendent. He is beloved alike by the boys and girls and the employees. They all live happily there together and the influence, as such that the boys and girls as they go out from the Home to take their places in the state as men and women will at once become useful and loyal citizens.

ADVERTISING POINTERS.

Continuous advertising compels attention.

The courtship of failure always follows a divorce from publicity.

When failure comes to tempt the advertiser, it wears the cloak of economy.

You can't reap a bountiful harvest of trade when the seed of publicity is improperly sown.

A present opportunity is often lost through using advertising space to brag about past success.

Doing business this year on last year's advertising is like warming at the reflection of a fire in a mirror.

WOES OF THE MILKMAN.

Fry His Best, He Never Succeeds in Getting Back All His Bottles.

"The greatest trial of my life," says a milkman, "is bottles. Yes, sir, bottles. If it wasn't for bottles, I'd want nothing better. Other people never think of bottles. I actually dream of bottles. It's bottles, bottles, bottles—who's got the bottles with me all the time!"

"The most perfect system of book-keeping ever invented will not account for bottles. When I send out 100 bottles of milk in the morning, I'm dead certain to lose track of half a dozen. I never look upon them bottles all again. Never again, sir! The milks are 8 cents and the bottles are 8 cents. But the people who would scorn to steal milk will keep the bottles. They think bottles don't cost nothing, or they don't think nothing at all."

"Some time ago a lady was behind about seven bottles and hadn't returned for a week. I know some people get two or three days behind with their empties, but I couldn't account for all of these. While I was thinking about it and look over across toward her flat I saw her maid chuck an empty out of the kitchen window into the lot. And, don't you know, I went over there and found a whole pile of broken bottles and two or three whole ones. They didn't know any better. Now, there was a lady in the other day, and I says, 'Ma'am, says I, 'I've got you charged with five bottles here.'"

"What's that?" says she. "I haven't got any of your old bottles. You don't suppose I'd steal milk bottles, do you? When I get to stealing, I'll take something better'n old castoff milk bottles. I don't like your milk anyhow. It's more'n half water, and I'm going to change."

"And she did change, and I lost a good customer by the mere mention of bottles. Some people keep their tea and things in the bottles. You can't go and search for them. You must take their word for it that they ain't got none. They are supposed to return their empties the next day, and they'll keep them for a week. I'd have to have a earload of extra bottles to suit them. Some of them just slap on their empties when the dumbwaiter comes their way, and some other milkman goes off with them. They don't care. And then when you call up for their empties, they get mad as hops and swear they sent them down—which perhaps they did, but not to us."

"And there's the servants that break bottles and swear they returning them a week ago, and their mistresses believe them. It's enough to drive a man to drink!"—New York Herald.

Constituent Parts of a Cord of Wood.

A cord of fairly seasoned wood weighs about 4,000 pounds. If subjected to a heat of between 700 and 800 degrees it resolves into three distinct products: charcoal, pyroigneous acid and gases. In order to properly bring this change about it is necessary to place the wood in a kiln and apply the heat gradually for four or five days. At the end of that time the residue will be 1,000 pounds of charcoal, 2,000 pounds of pyroigneous acid and 1,000 pounds of uncondensed gases. The aggregate weight of these products is exactly equal to the original weight of the wood.—St. Louis Republic.

Exhausting.

"They say early rising is very unhealthy." "Of course. Many a woman has broken down her constitution getting her husband up in time for breakfast."—Chicago Record.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists for fifty cents and one dollar. For a sample bottle and pamphlet, full sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its genuineness.
